Dear Sir

Please be advised that I am very upset by the resort to litigation by AOL.

The country is being torn apart by the artificial insertion of legal decrees that have nothing to do with the required settlements needed.

I request that you facilitate the allowing the companies to work together or else, we will have another situation as in the asbestos, tobacco, pharmaceutical, and Dow silicone situations where major companies are allowed to be destroyed.

When are you going to provide leadership and stop this morass of litigation. There will be no companies left if we follow the current legal approach championed by congress supporting the trial lawyers and in the case of Microsoft supporting state treasuries.

Please do not facilitate the lawyers --STOP IT--Let the 2 companies work it out. We don't need another ENRON!!!
